For the tastes of the most demanding

Atera Business Suite is a brand new luxury building located in the very centre of Belgrade, in the pedestrian zone of Knez Mihailova Street.

It covers an area of 1000 m² and offers a modern, comfortable and luxurious accommodation. It has 12 modern accommodation units of different capacities, from single rooms to luxury suites which will satisfy the tastes of the most demanding guests.

Atera Business Suite was built according to up-to-date standards and equipped with modern sophisticated technology to offer its guests an utmost pleasant stay.

Within the building there is a restaurant with 70 seats in which the guest can relax in a pleasant atmosphere while having a drink and a look at Knez Mihailova Street.

The friendly and professional staff is also one of the hallmarks of Atera BS, which will ensure that every guest is satisfied and receives a superior service.

THE ULTIMATE
FLOORING EXPERIENCE

Wood brings the nature in

With all the sophisticated guests and those who are always looking for more, hotels are always looking for a competitive advantage which will differentiate their services. For large international chains, it often means a consistent style regardless of the country, while “boutique” hotels or smaller chains can rely on their **individuality**. The latter was also the case in our story about Atera Business Apartments, where **exclusive solutions** had been chosen and they have made the desired difference.

The **Bordeaux design** has perfectly enabled the required contrast of modern furniture and rustic floor, with a maximum effect of the unique beauty of wood.

At the same time, the stability of Tarkett multilayer parquet and unique “**Hardwax Oil**” oil protection for commercial premises provided the necessary resistance, durability and easy maintenance.

TARKETT SOLUTION

Tango Vintage - Bordeaux & Tango - Schwarzwald

TARKETT PARTNER AND INSTALLER

"MCS Sistem", Požega, Serbia

PROJECT TEAM / ARCHITECT / DESIGNER

"Atera Plus" – the investor

PROJECT REQUIREMENTS

- Rustic design, living structure which gives contrast to the appearance of the interior
- Endurance and wear resistance of the floor covering with the possibility of local reparations
- Easy and low-cost regular maintenance

TANGO – THE SPIRIT OF RICH TRADITION

Inspired by the tradition of the most prominent wine regions and its 125 years of experience in the production of parquet, Tarkett has created an authentic and timeless collection **Tango Vintage**.

With its rustic appearance, unique designs, oiled surfaces and bevelled edges, every single plank from this collection conveys the legacy and spirit of the world's most famous wine regions into your home.

BORDEAUX

The name itself is associated with high expectations in terms of wine. This eponymous wine region has a maritime climate, celebrated vineyards, as well as characteristic grape varieties and a well-known tradition.

The integration of oil paint, brushed surfaces and chamfers produced the parquet of antique look with rich tones of gray in the pores. While **Tango Vintage - Bordeaux** owes its irresistible appearance to all these processes, it owes its amazing durability to "Proteco Hardwax" oil, which provides better protection than the traditional ones.
